1. BEFORE USING THE EQUIPMENT AND SECURITY

The Dynamometers are designed and manufactured under our internal quality standard and the supervision that forces the rule ISO9001. The operator must be familiarized with the use of this tool, and must be consequent with the inherent risk of the use of the hydraulic tools. Use the appropriate protection devices such as:

If any malfunction in the equipment is detected, never use it until be repaired by specialist personnel. Store it far of the operators, in a safe place.

Watch the extreme environmental conditions and keep greased the equipment.

Never store the tool in a place where the children could have access to it.

Dynamometers have been designed for measuring loads in compression. Can be used for measuring tension loads in cables, tensile testing and can be used as a weighing device.

The omission of this instruction manual could produce personal injuries and material damages, that LARZEP, S.A. will not be responsible.
